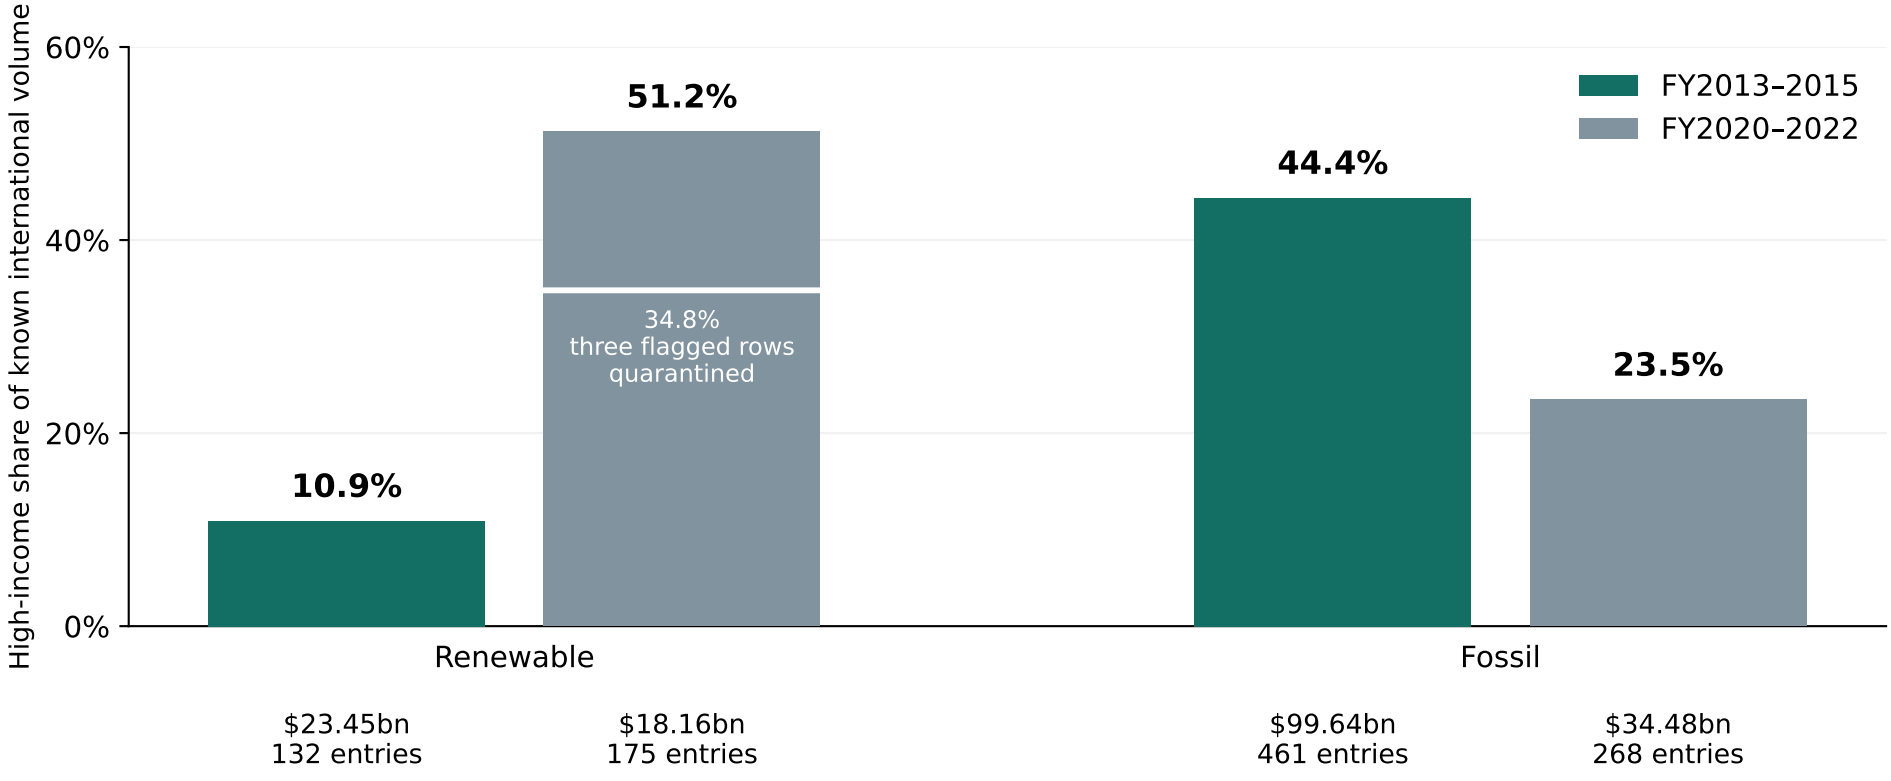
Recipient allocation differs sharply by technology

Known international recorded support values · fixed World Bank FY2013 income classes

Descriptive comparison; amount basis and reported financing mechanisms require qualification.



Coverage: unknown-income volume in all-location portfolios

Renewable: 0.33% early / 0.59% late. Fossil: 30.40% early / 35.99% late.

Recorded support values mix source bases. Quarantining three Dogger records leaves $13.58bn late renewable.
One renewable amount is missing. Domestic/unresolved locations excluded; entries are not projects.
